109 igor sheftunov discussing the incidents and struggles that led to establishment of soviet union 66 years ago. recent events in grenada show how far imperialists can go in order to attain their goals. however, in present age there is nothing that has the power to force workers to stop their struggles for their rights, independence, and freedom. many years of struggles by iranian people against the shah's despotism and imperialist oppression, as well as entire history of tudeh party of iran are proofs of this. tudeh party continues to defend iranian people's rights, and appeal of tudeh party foreign-based committee is a manifestation of this.
